

Case study: Serpentine Galleries

Maintenance services

Background

The Serpentine Galleries are two world renowned contemporary art galleries located in Kensington Gardens, London. Comprising of the Serpentine Gallery and the Sackler Gallery, they are linked by a bridge over the Serpentine Lake. Their exhibitions, architecture, education and public programmes attract up to 1.2 million visitors each year.

Brief

To provide comprehensive mechanical and electrical technical solutions, whilst meeting the demanding expectations of both client and artists showcasing their work, within the constraining parameters presented by the buildings' Grade II listings.

Summary of works provided

Provision of planned & reactive maintenance services within public galleries and ancillary offices, including:

- Gas boilers & gas fired appliances
- AC & chiller units
- Pump sets
- AHUs & ventilation equipment
- Water hygiene & plumbing services
- HV/LV systems
- Fire alarm systems
- Standby generators
- Lightning protection systems
- Emergency lighting
- High mast lighting
- General display lighting
